

I. Nyarutarama Business Incubation Center

Nyarutarama Business Incubation Center is a public Incubation Center launched by WDA on

16 May 2015 considering the one among its strategic pillars which was Business Incubation (Entrepreneurship Development).

It is located in Nyarutarama cell, Remera Sector, Gasabo district in the City of Kigali and is located on the area of about 1,7 Ha.

Nyarutarama Business Incubation Center was thereafter mandated to train and help to create

business for the unemployed people.

The trainees are trained in chosen fields with additional skills to operate industrial tools and

to start & run a small business through consecutive training and incubation periods or the business maker with business idea in a given technology available in incubation may apply to

start their business in incubation center for a certain period supported by incubation staff.

Equipments available in Nyarutarama Business Incubation Center are assembled as small and

medium semi automated factories and are divided into 2 categories; Food products factories

and Non food products factories.
